- All riders must have a double yellow tube or single blue rental tube to participate.
- All riders must be at least 48" tall in bare feet.
- Weight Restrictions: Single Riders must not exceed 250 lbs. Combined weight for Double Riders must not exceed 400 lbs.
- Each rider should have the physical and cognitive abilities to support themselves in an upright seated position and firmly grasp the handles of the raft at all times through the completion of the ride.
- Two functioning hands (one may be a functioning prosthetic) are required.
- Larger riders will be positioned in the back section of any double tubes with your feet positioned under the arms of the rider in the front.
- Proper riding position is seated forward with the tube facing forward as indicated on the tube.
- Pregnant women, guests with heart conditions, guests with neck or back problems should not ride.
- Proper swimwear is required in order to participate. Attire with buckles, rivets, or any sharp objects is not permitted.
- Footwear will not be allowed to be worn while riding.
- Eyewear should be secured with either a head strap or in hand while riding down the slide.
- Do not attempt to stop or slow down your raft while sliding.
- Once at the bottom, please exit your raft feet first and exit the catch pool quickly and carefully.
- Please pass ride tubes to the next guest in line.
- Riders will experience strong acceleration and deceleration forces throughout the ride. Riders are encouraged to witness the attraction prior to participation.
- Please adhere to lifeguards' instructions at all times.
